

new VEIT 3.5 Ultralight

1-ton payload with a 3.5 t class vehicle!

Number of chicks

		overloaded
VEIT 3.5 Ultralight	16 000	23 200
Common truck	11 000	

- > Ultra-high capacity within the 3.5 t limit
- > **3D Airflow** technology
- > Toll- and break-free transport with a basic driving licence

Load 45% more chicks thanks to lightweight materials

The VEIT 3.5 Ultralight is a new model of a 3.5-ton truck for transporting day-old chicks. The whole concept has been revised, parts redesigned and new lightweight materials used. Thanks to this, it now can transport 45% more chicks than the previous model or common trucks. This makes our Ultralight **unique on the market**. Naturally, all the benefits of the small truck are preserved – quick, handy and economical vehicle with no need for mandatory breaks, toll or special driving licence.

No compromise made: all the power, comfort and advanced VEIT technologies are present

- High power with **3D Airflow**
- Low fuel consumption
- Highest reliability
- Shortest cleaning time
- Lowest Total Cost of Ownership
- Wide range of options
